

AI-Enabled Physics Framework for Viksit Bharat 2047

Dr. Shyam Babu

Asst. Professor of Physics,
RHS PG College (Affiliated to VBSPU, Jaunpur)

For: International Conference on “**Viksit Bharat @2047: The Confluence of Tradition, Transformation and Artificial Intelligence**” Organized by: Rajkiya Mahavidyalaya Academic Society Uttar Pradesh

Why AI-Enabled Physics for Bharat 2047?

Viksit Bharat 2047

Science as growth engine

AI as accelerator

National Missions

**Viksit Bharat
2047**
(Long-Term
Vision)

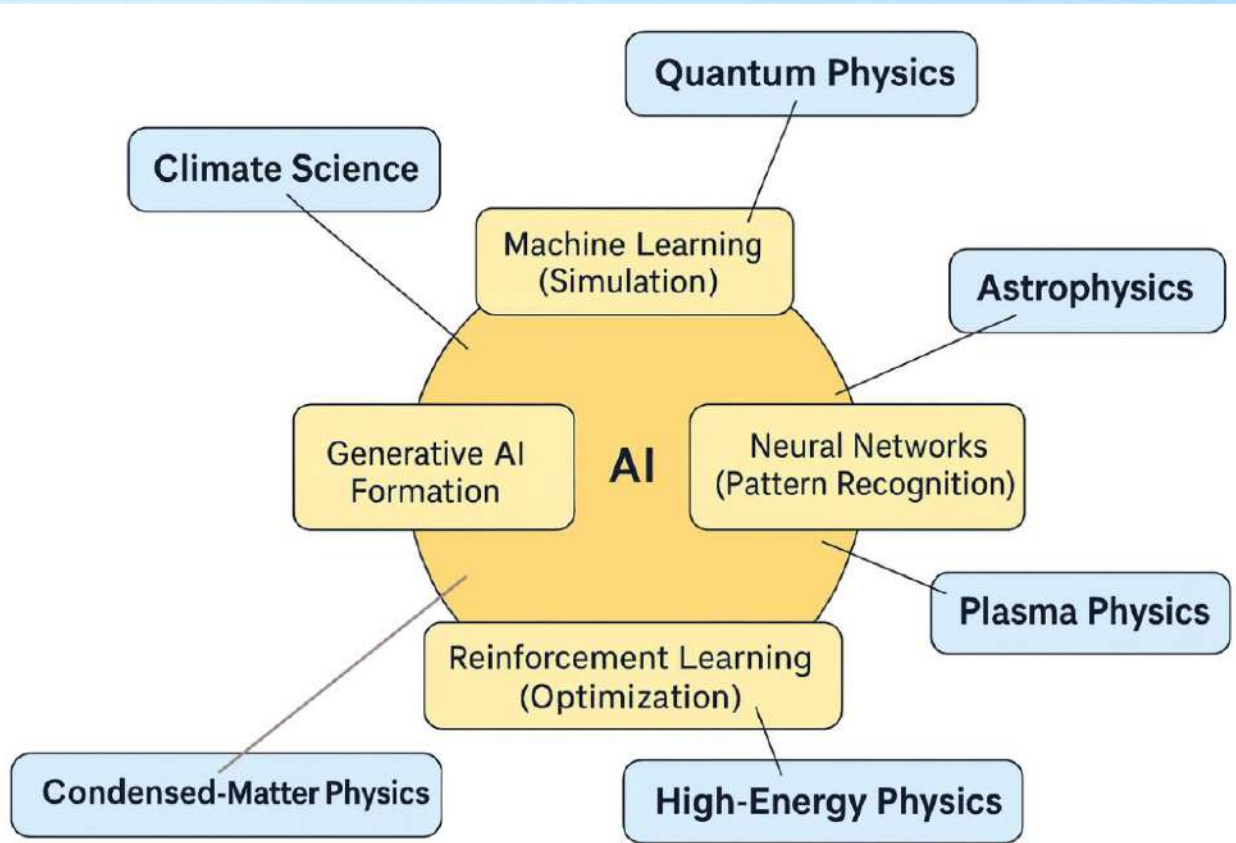

**Physics as
Foundation**
(Energy, Space,
Climate)

**Artificial
Intelligence**
(Acceleration
Engine)

**National
Missions**
(IndiaAI,
NQM, Digital
India)

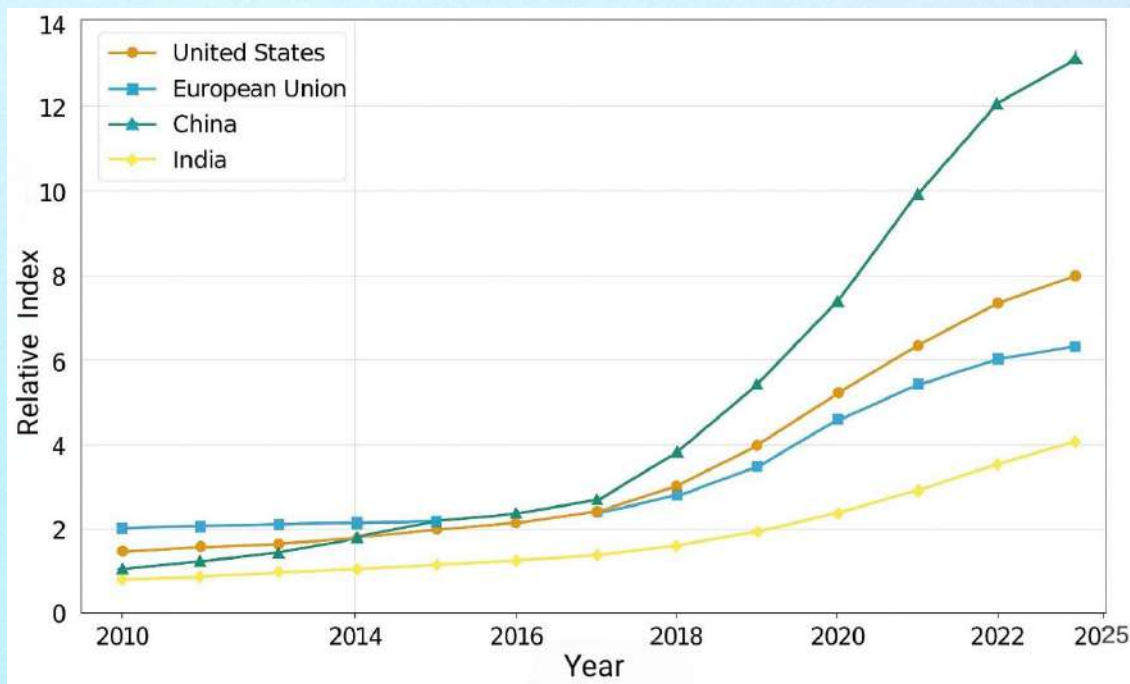

AI Methods and Their Reach Across Physics

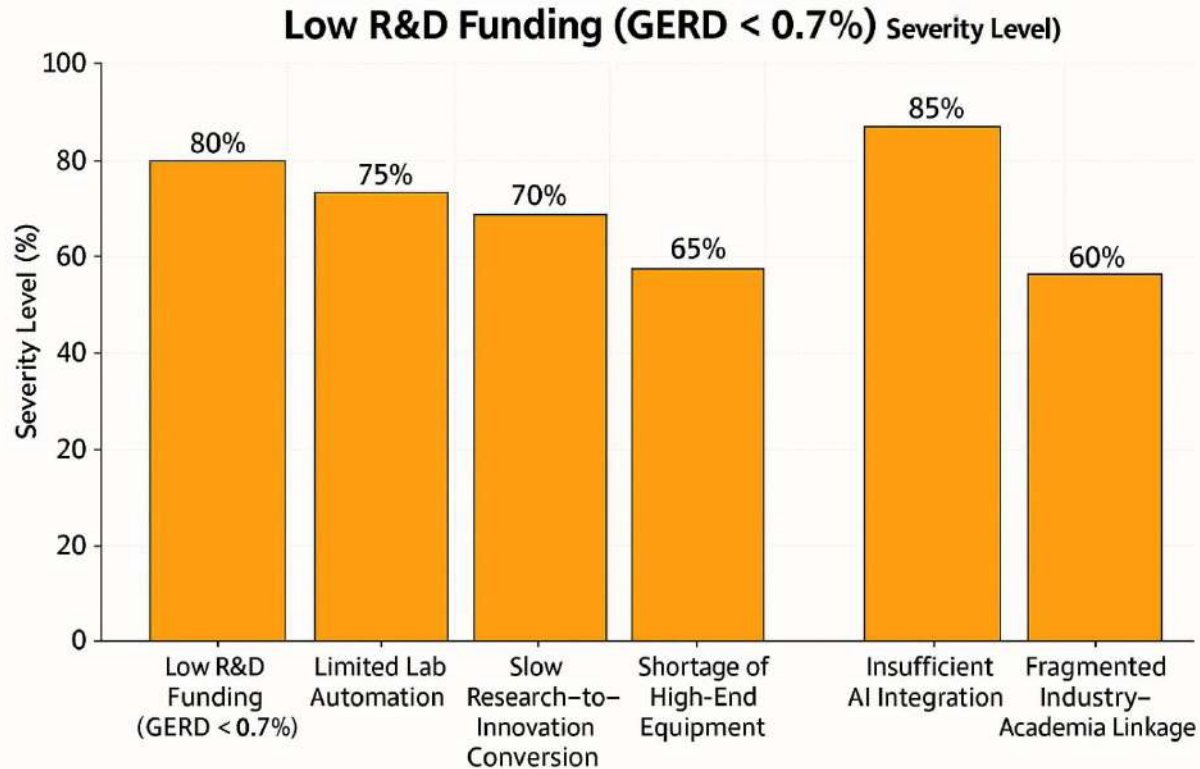

India's Scientific Readiness: Where Do We Stand?

Indicator	India	United States	China	European Union	Reference
GERD (% of GDP)	0.65%	3.4%	2.4%	2.2%	OECD; UNESCO (2023)
AI Research Output Rank	5th–6th	1st	2nd	3rd	Stanford AI Index (2024)

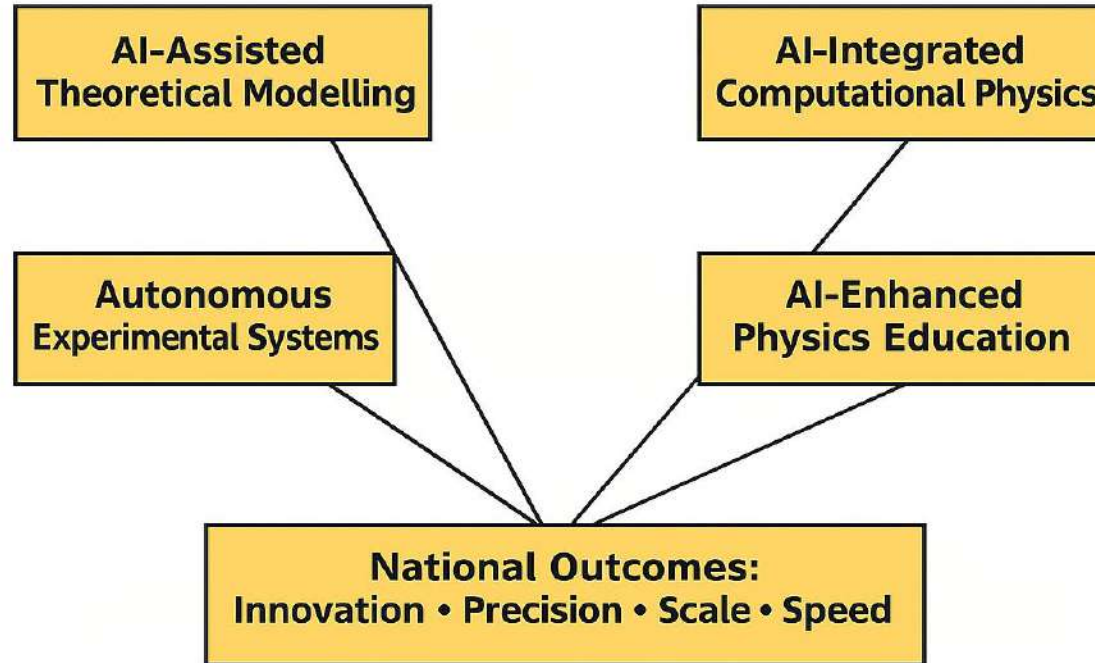

Challenges in Indian Physics Research

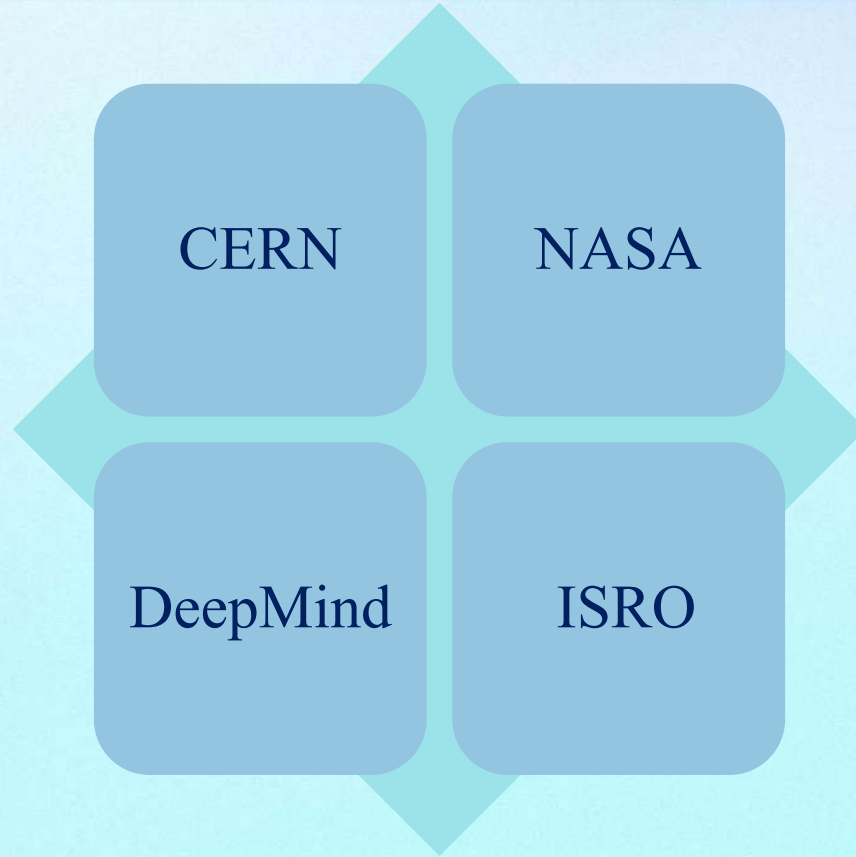

AI-Enabled Physics Framework for Viksit Bharat 2047

Four AI-Physics Integration Domains Converging into National Outcomes for 2047

Evidence from Real-World Applications

Impact & Way Forward

Faster discovery

Deep-tech growth

Self-reliance

Policy alignment

Thank You!

**“The future of science lies in the synergy between
human insight and machine intelligence.”**

-Michael I. Jordan
